

The P.H.E. Organizations Goals!

This document summarizes the fund raising goals & volunteer goals for The Project Humanity & Earth Organization! A small group of people can change the world, as long as they work together on an epic common project and goal that will benefit All of Humanity & Our Planet!

The very **First Step** volunteers can take which will help reach the short term goal is to share the website link through your social networks & community networks! Get a bundle of P.H.E. Handout Cards located on the website Home Page. Hand them out to your community, your friends & family to get the word out!

The **Second Step** for volunteers is to set a personal goal of getting up to eight people in your network to donate up to 8 dollars a month through the website. This is part of the organizations short term goal that will help grow and fund the organizations cause.

All donated money is going towards the P.H.E. Land Fund Cause so the very first P.H.E. Community Center can be built to show the world how amazing these buildings are and what this project & organization is all about! 100% of the money that is donated goes to the P.H.E. Community Center Land Fund.

For now the organization has No paid volunteers which that also includes the Founder of P.H.E. who is Not being paid. All donated money comes directly from volunteers & supporters which goes directly to the Land Fund so the first community center can be built which will be the organizations headquarters! More details are on the P.H.E. Community Center can be found on the website.

The Short Term Goal:

Volunteers work on personal goals, sharing website links, giving out the Handout Cards and creating events to support & fund the organization. The overall short term goal for volunteers & the organization is to get 100,000 volunteers worldwide to donate up to 8 dollars every month so the fund raising goal of \$800,000 dollars can be reached very quickly for building the first community center!

The Long Term Goal:

The P.H.E. Organization is trying to get 800,000 people worldwide who can support, volunteer, invest, & donate to the organization. Getting 800,000 volunteers & supporters worldwide who can donate up to 8 dollars a month would be an amazing achievement and would be able to fund the organization long term project of building P.H.E. community centers worldwide every few months!

Which would get the organization to its long term end goal of having a community center in every US State & Country or Nation worldwide! It just takes \$1 dollar a month from 800,000 people worldwide to finance this great organization for the long term worldwide building project!

Volunteer Donation Events & Projects:

Volunteers can work on individual fund raising tasks & projects such as a Can & Bottle Drive that have a deposit of 5 to 10 cents when recycled. Which that money can be donated to the P.H.E. Land Fund. Many US States & Countries have a redemption on glass bottles and aluminum cans for recycling.

Volunteers can host a live band event! A walk & run event! These are just a few fund raising ideas volunteers can do to raise money for the P.H.E. Cause! A volunteer taking these first steps and actions is the easiest way to help support, grow and fund this small worldwide grassroots organization and it's community center build project!

As an organization P.H.E. takes a hands off approach when it comes to telling it's volunteers & supporters what they should be doing or what they can do on a weekly or monthly basis. The organization believes in the individual volunteer who already knows what they can do to help the organization by using the natural talents & skills they already have to help spread the word to get more volunteers & supporters!

The organizations founder has already laid the ground work & the ideas for all volunteers to use and help move the organization forward! Through this document and through the website that is always improving & being updated. The volunteers will have the knowledge & resources for helping the organization.

**So we hope you become a volunteer & supporter!
It is now up to the Volunteers, We the People & the World
to help fund & support this great organization & project!**

**Thanks for Your Time, Support, Volunteering, Investing & Caring!
Together We Can Be The Change We Wish To See In Our World!**
